## EXPERIENCE

### LTIMindtree, Bengaluru — *Software Engineer*

November 2021 - PRESENT

- Created multiple robust, agile and efficient SharePoint websites using Typescript and React workflows.
- Developed and integrated a real-time data update system that optimized the speed of data processing and updation.
- Developed multiple scheduled as well as event triggered flows to automate the mailing system of the SharePoint site.
- Developed the Frontend of multiple sites with almost 90% compliance to the UI/UX design which has resulted in more than 80% client and customer satisfaction.
- Integrated third-party tools and components into the React code to optimize multiple functionalities.
- Created multiple CI/CD pipelines for SharePoint sites and deployed multiple SPFx webparts in the PROD site of SharePoint using Azure DevOps.

### LTIMindtree, Bhuvaneshwar — *Software Engineer Trainee*

June 2021 - November 2021

- Mindtree's Orchard Learning Program in which I was trained as a MERN stack developer and learned about JavaScript Frameworks.
- Developed multiple Blog and Image sharing sites using MERN technology and developed a good understanding of HTTP/REST/API architecture.
- Developed an E-commerce grocery shopping site using MERN workflows such as MongoDB, Express, React, Node.JS and Redux as a final project of the training program.

## EDUCATION

### Manipal University Jaipur, Jaipur — *Bachelor of Technology*

Sept 2017 - May 2021

Computer and Communications Engineering .

## SKILLS

- React.JS
- Typescript
- Node.JS
- MongoDB
- Express
- HTML
- CSS
- JavaScript
- Power Automate
- Java
- C

## COMPETENCIES

- Developing robust, agile and efficient functionalities using React and Typescript.
- Ability to debug complex UI and handle front-end development of the site.
- Creation of CI/CD pipelines and deploying builds using Azure DevOps.
- Good understanding of OOPS concept in Java.
